

Addendum

Som nævnt i ovenstående afsluttende høringssvar, sendte jeg den 9. september 2013 følgende anmodning til redaktionen af journalen *Personality and individual Differences*:

Addendum

Addendum to "The Decay of Western Civilization: Double relaxed Darwinian Selection" [Personality and Individual Differences 53 (2011)118-125]

Helmuth Nyborg

University of Aarhus (1968-2007), Adslev Skovvej 2, 8362 Horning, Denmark

The analysis uses official UN Total Fertility data downloaded from http://www.un.org/esa/population/publications/worldfertility2007/Fertility_2007_table.pdf. As the simple projection model used cannot accept Total Fertilities, it was necessary to proportionally convert the UN Total Fertility to Crude Birth Rates via Nationmaster (http://www.nationmaster.com/time.php?stat=peo_bir_rat-people-birth-rate&country=af-afghanistan), which covers both total fertility and Total Crude Birth Rates. This procedure changes nothing in the overall outcome of the study.
